

GPX/GPZ/NOX/ALGOFORCE SCOOP CLIP

The scoop clip has been designed to attach your scoop to the detector shaft for easy carrying. Free your hands to carry all your gold 🤪. Reduce the chance of losing your scoop when it falls out of your pocket.

PREPARATION

- Clean the detector shaft of excess dirt before installing the scoop clip.
- Push the clip onto the top detector shaft with the [THP] logo towards the coil, this ensures that the scoop angles up and does not rub on the shaft.
- Go detecting.

USAGE

- Insert the end of the scoop handle into the back clip as shown and push the scoop down into the front clip.
- To remove the scoop simply lift the front of the scoop up and slide the handle forwards.
